

Embedded System (CEG-7360) Final

Project Team

Team 's Name: CEG-7360 Final Project

Team Leader: Andrew Streng

Team Members

S.No	Member Name	University Mail	UID
1	Matthew Coley	Coley.7@wright.edu	U01141613
2	Andrew Streng	Streng.4@wright.edu	
3	Josiah Schmitz	Schmitz.74@wright.edu	U01049737
4	Blake Payne	Payne.199@wright.edu	U01075045

Group Meetings and activity planning:

How Student's are planning work for the project as a team

- This plan will be treated as a living document and will likely change based on the chosen project
- We will communicate in person and over email/text
- Each member will brainstorm ideas to then discuss by 18 September to determine the chosen project
- We will then decide the project requirements based on the chosen idea and a development schedule that aligns with the course schedule
- The work will then be divided between the hardware and the software components
- Presentations will be completed together
